CORRECTIONS

Traffic Flow Map, Page VIII

Please note that on U.S. 93 from Polson to Kalispell, some Total Traffic numbers and Commercial Traffic numbers are incorrect and need to be changed. Refer to the following map:

Corrections to Federal Aid Primary System Data, Page 38

Please note the following changes:

- FAP 5 Milepost 82 to 82.5 - The 1993 Commercial Vehicles should read **413** not **556**
- FAP 5 Milepost 93 to 0.537 - The 1993 Commercial Vehicles should read **400** not **549**

INTRODUCTION

The 1993 Traffic By Sections publication depicts the Federal-aid Highway System prior to the implementation of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) and does not depict which routes are currently on the interim National Highway System (NHS) or which routes have been designated through Commission action onto the state primary, secondary and urban systems.

This report presents statistical information on traffic volumes (Annual Average Daily Traffic [AADT] and Vehicle Miles of Travel (VMT) on Montana's Federal-aid Highway System for the years 1991, 1992 and 1993. The statistics are presented in four sections: Interstate, Primary, Secondary and Urban and are given as weighted¹ AADT between section control points.² On the Interstate and Primary systems, AADT and vehicle miles of travel for commercial vehicles are also provided.

The Highway Information System (HIS) is currently being updated to reflect the interim NHS and the State Highway Systems designated by the Highway Commission in November of 1993. The 1995 Traffic By Sections publication will reflect all of those changes.

For specific traffic count and location information, contact the Traffic Operations Section at (406)444-6122.

¹ Computer process that averages the data between section control points.

² Section control points consist of any point that reflects a traffic change on a roadway such as junctions, intersections with other roadways and intersections with county, municipality or urban boundaries.

Abbreviations and Acronyms used in the Report

AADT - Annual Average Daily Traffic

ADT - Average Daily Traffic

FAI - Federal Aid Interstate

FAP - Federal Aid Primary

FAS - Federal Aid Secondary

FAU - Federal Aid Urban

HIS - Highway Information System

ISTEA - Intermodal Surface Transportation Efficiency Act

NHS - National Highway System

Veh. Miles - Vehicle Miles of Travel

Definitions

AADT - The annual average daily two-way traffic

ADT - The average daily two-way traffic

Commercial vehicles - Trucks (excluding pickups) and buses

Rural - Traffic data outside urban boundaries

Section Control Points - Any point that reflects a traffic change on a roadway such as junctions, intersections with roadways and intersections with county, municipality or urban boundaries.

Urban - Areas having a population of 5,000 and more

Vehicle Miles of Travel - The ADT multiplied by the section or route length

Weighted - Computer process that averages the data between section control points
